To advertise in or to contribute articles to this monthly newsletter,

Universal Avionics Systems Corporation (UASC) is a Tucson based leading manufacturer of avionics systems used worldwide on a full range of aircraft types from helicopters to corporate aircraft and large commercial airliners. All products are designed to meet or exceed emerging requirements as we move toward the realization of “free flight” in the airspace environment of the future. We offer a complete line of flight management systems, cockpit instrument displays, a terrain awareness and warning system, a cockpit/ground communications data-link, navigation position sensors, and cockpit voice recorders.

Universal Avionics has a 28 year history of innovations, all focused on improving aircraft safety by reducing pilot workload and improving pilot situational awareness. This spirit of innovation continues today, as UASC is now offering the business jet industry’s first product line of Wide Area Augmentation System (WAAS) enabled Flight Management Systems. This new technology improves accuracy, resulting in fewer diversions and delays for our business jet customers, improved on-time performance for our passenger airline customers, fuel savings for all customers, and a cleaner environment for everyone.

Due to “ITAR” requirements everyone desiring to attend this plant tour must register with Name, Company and “All” countries of citizenship.

Steve Pagnucco BSEE MSEM

About the Speaker:

Steve Pagnucco is the General Manager of Universal Avionics' Manufacturing Division. Prior to joining Universal Avionics, Steve spent over 16 years in Engineering and Manufacturing management positions with AlliedSignal and Honeywell aerospace divisions. During this time he specialized in leading startup and turn-around activities. Steve has a Bachelor of Science in Electrical Engineering from the University of Notre Dame as well as a Master of Science in Engineering Management.

Chapter Information

Get involved with APICS

APICS is a vibrant professional society recognized by inventory and supply chain management professionals worldwide as the leader in certifications, education, and the resources necessary to improve business performance. This achievement was not obtained and cannot be sustained without the countless contributions made by our volunteer community.

Vision & Mission Statement

Our Vision:

To inspire lifelong learning and enhancement of individual and chapter success.

Our Mission:

To be the leader and premier provider of individual and organizational education, standards of excellence, and information in Integrated Resource Management.

Tucson Chapter Mission Statement:

To help the business and educational community meet challenges of professional growth by providing high quality resource management education.
