The Integration of 3PL's and 4PL's into a Supply Chain Organization

In this competitive business environment, companies are struggling to find their competitive edge in the market space. The integration of 3PL's / 4PL's can be cost reduction and efficiency enablers into a supply chain if done right. The discussion will focus on the value proposition of these material flow models, enablers to success and the risks that need to be addressed prior to making the implementation decision.

3PL's and 4PL's are not only an important new supply chain approach to reducing costs and improving service to your customers but also its a significant knowledge area in the Certified Supply Chain Certification body of knowledge. Come and learn first hand from a process implementer how to make this approach work.

Students currently enrolled in the U of A, NAU, ASU and Pima may attend this PDM for \$5 (must reserve in advance).
